STATION 1: PROJECTION WORLD

The 19th century: Cities in growth - mobility in transition

The sound, light and colours make the topic of mobility in the 19th century cities tangible for all senses. The projection world informs and touches in a creative way, with colourful illuminations and constantly changing forms. The light artist Gregor Eisenmann creates a space as a breathtaking art object.

NOTE: YOUR VISIT TO THE SCHWEBODROM LASTS APPROXIMATELY 75 MINUTES AND STARTS AT PREDETERMINED TIME SLOTS.

STATION 2: EXHIBITION

With the Schwebebahn through time – Exhibits and Stories

Exhibits from the beginnings to the present day tell a story of the innovative power of the unique Schwebebahn and make it comprehensible and tangible: little secrets about the connection between Eugen Langen and the invention of sugar cubes, great insights into flying rivets, exciting facts about the legendary Tuffi jump.

STATION 3: VR-TOUR

Through the Wupper Valley in the original wagon 11 - A virtual journey back in time to 1929

Get on board an original Schwebebahn wagon built in 1900, put on the VR glasses - and off you go on a journey back to 1929. Float with Theodor, spoken by famous actor Dietmar Bär, 13.3 kilometers past smoking chimneys, breathtaking buildings, historic vehicles and busy weekly markets. Experience the irresistible charm of the 1920s.

TWO CENTURIES IN ONE DAY

AFTER YOUR RIDE THROUGH THE WUPPER VALLEY IN 1929, TAKE THE OPPORTUNITY TO EXPERIENCE THE SAME ROUTE WITH TODAY'S SCHWEBEBAHN.
